Infrared LED and Silicon Detector

Product Specifications

Common Products

DIP

SMD

Application

Home Appliance, Wearable Device Health Care, Automotive, Monitor.

CT Micro provides surface-mount emitter/receiver tubes in various packages. With compact miniaturized designs, they are widely used and specially designed for electricity, water, gas and oil meters.

Optical Switch/ Photo Coupler/ Color Sensor

Product Specifications

Common Products

Optical Switch

Photo Coupler

Ambient Light Sensor

Application

CT Micro produces various specifications of infrared photoelectric switch sensors, suitable for various automated sensing equipment.

optocouplers include Darlington tube optocouplers, high-speed optocouplers, Standard (DIP/SOP), Photo-Triac Driver and Solid State Relay.

ALS products are widely used in LED TVs, mobile phones, large display screens, various electronic display screens, and products with intelligent energy regulation.

Visible LED

Product Specifications

Common Products

SMD LED

LAMP/DISPLAY LED

Application

CT Micro has the most comprehensive SMD LED packaging in the industry, Including 0603/ 0402/ 0805/ 1206/ 3528/ 3020/ 5050 and other special packaging.

Traffic signs, traffic lights and car taillights. outdoor screens, billboard highway indicator screens. Home appliances. Medical, communication, aviation, consumables, etc.,
